OLUWATOBILOBA AGUNLOYE

Full Stack Web Developer

@ oluwatobilobagunloye@gmail.com   📞 (+234) 9056347603   📍 Lagos, Nigeria   ⌨ Tobilight

Innovative Front End Developer with 4 years experience building and maintaining responsive websites to deliver exceptional customer experience. Proficient in HTML, CSS, JavaScript and React plus modern libraries and frameworks. I have proven experience in creating and designing software in a test-driven environment.

EXPERIENCE

Front End Developer Intern

Edves School Management System

📅 Sep 2018 – Dec 2018

- I worked closely with the UI/UX designer to create amazing UI using HTML CSS and Javascript.
- I refactored the Javascript code for handling submission of contact form so that users can send messages from the web app. I did a bit of UI upgrade using HTML and CSS for form validation and success message(s).
- I worked very closely with another web developer to improve overall website performance by minifying the multiple CSS and Javascript files.
- I fetched data from Edves REST/RESTful APIs to display dynamic HTML content on client side.

Backend Developer Intern

HotelsNG

📅 Jul 2019 – Sep 2019

- I implemented admin feature to add and delete a user using Node.js and Express.JS
- I also assisted the front end developers in consuming my endpoint and displaying data to the client.

Front End Developer

12Musts Caribbean Magazine

📅 Aug 2017 – Feb 2021

- Built the front end using React.
- I developed the backend using Node.js, express.js for creating REST/RESTful APIs and JWT for user authentication using MongoDB for data storage
- I integrated Paypal payment with the website using their REST/RESTful APIs to let users make payments and purchase travel tour tickets easily.
- Integrated with MailChimp to send monthly newsletters to subscribed users using their REST/RESTful APIs.
- I implemented a 'spin and win' feature using word press plugin to let users win free gifts. The UI was built using HTML, and CSS and a bit of JavaScript for user interaction.
- I used React hooks to fetch data from a third party API to display dynamic HTML content to the user.

Full Stack Web Developer

Technolcast

📅 Sep 2021

EDUCATION

B.Sc in Computer Science

Houdegbe North America University

📅 September 2013 – August 2015

SKILLS

HTML   CSS   JAVASCRIPT   VUE
VUEX   NUXTJS   TAILWINDCSS
Git   REACT   REACT HOOKS
REACT QUERY   REACT REDUX
NODE   EXPRESS   MONGODB

- I built the backend using Node.js and Express.js for REST/RESTful APIs and JWT for user authentication using MongoDB for data storage.
- I built the front end using React and Typescript.
- I was responsible for deploying the React app (front end) and the Node.js express.js (backend) to Heroku
- Improved customer feedback and requests within a few weeks.

PROJECTS

File Tracker Web App
react, react query, react hooks, antd design

📅 March 2019 – March 2019

- Users can select different plan packages
- Users can subscribe and make payment for any selected plan of their choice
- Users can create and delete a folder
- Users can upload and manage files in a folder
- Users can download files
- Users can update their payment method
- Admin can manage users, plans and subscriptions.

- -

Travel tour Web App
html, css, bootstrap, javascript, react, react hooks

- Login, Register functionality & Users can post upload images/videos and posts.
- Payment functionality using Stripe & PayPal. Users can purchase tickets using their credit card or PayPal
- While admin can manage posts, images, and comments.

- -

Online Tutoring App
nodejs, mongodb, expressjs, jwt

- Login, Register functionality
- Student can book a lesson and tutor
- Tutor can register and manage subjects
- Admin can manage subjects
- Admin can manage categories the subjects are in
- Admin can manage tutors
- Admin can manage lessons

- -

Technolcast Web App
html, css, tailwindcss, javascript, react, react hooks, nodejs, mongodb, expressjs, jwt

- Admin can upload and manage projects
- Admin manages clients

- -

Real Time Chat Application
mongo, express, node, socket.io

- Developed a real time chat application where the users can create their Username & start chatting with the other people in the chat room.

- Developed a real time chat application where the users can create their Username & start chatting with the other people in the chat room.
